Introduction

OrcaTorch was founded by a group of passionate flashlight enthusiasts and technology geeks in 2014. The founder Carson Weng, is an outdoor enthusiast who has more than 10 years experience in the manufacture of high-end flashlights. When he was diving in Thailand for the first time in 2013, he found that divers were using low-quality dive lights which lacked innovation and usually did not work at the critical moments. He decided to use his talent in the flashlight industry and created a high-quality and innovative dive light brand and named it as OrcaTorch.

Orca, is a kind of whale that is fearless in challenging everything, free and unconstrained to parade all over the sea as it pleases. They conquer all the difficulties with team spirit and wisdom. They are the overlords of the sea and the best symbol of underwater adventure spirit.

Named after and inheriting the excellent characteristics of the Orca, which combine with advanced technology, OrcaTorch has developed a series of dive lights and underwater video lights that feature high brightness, long runtime, long beam distance, significant waterproofness, high impact resistance, and convenient operation. OrcaTorch advocates the spirit of 'follow your heart and just do it'. We love to explore the wonders of the world, feel the excitement of challenge and enjoy the freedom of life together with all underwater adventurers.

Product Advantages

▶ CREE LED, Environment friendly, long lifetime and durable 50000 hours lifespan, 10 times as efficient as the ordinary LEDs

▶ High-efficiency constant current circuit instead of PWM circuit
Constant brightness without flicker.

▶ Two sides coated toughened glass with high water pressure resistance.
Water pressure resistant construction ,depth rated to 150 meters.

▶ Alloy aluminum reflector with professional optical analysis.

Manufacturing process

OrcaTorch lights use aircraft-grade aluminum AL-6061-T6 with light weight and high strength. All lights adopt premium Type III military hard-anodized finish which is better anti-abrasive than normal anodization and performs well in extreme environment. We also upgrade the finish of diving light to latest diamond grade seawater-corrosion-resistance hard anodized finish which is thicker and denser than normal Premium Type III military hard anodization, making the light surface as tough as diamond to protect the light from seawater corrosion.

Testing standard

OrcaTorch's stated data has been measured according to the international flashlight test standards (ANSI/NEMA FL1) under laboratory conditions.

Warranty

We will replace products afflicted with manufacturing defects within 30 days of purchase and repair a light free of charge within 12 months of purchase if problems develop under normal use.
If you register your OrcaTorch products through our official website www.orcatorch.com, you will get extra 12 months and totally 2 years warranty.

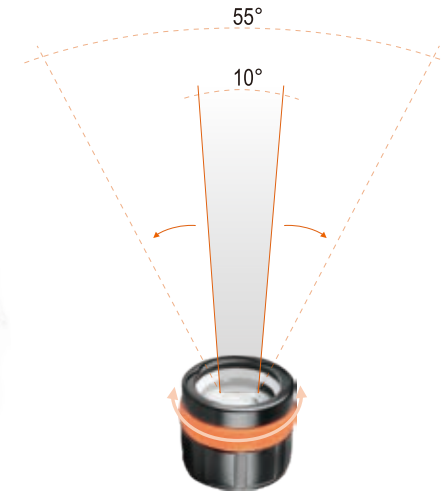

New Release Dive Lights

D640 Max 1000 lumens

Main Features:

- ◆ Focus Canister Dive Light
- ◆ 180° Head Rotating
- ◆ 10°-55° Beam Angle Adjustable

SD01 Mini glow tank

Main Features:

- ◆ Powered by 1*AAA battery
- ◆ Runtime 108 hours
- ◆ Size: 77.5mm(Length)*19mm(Diameter)
- ◆ Net Weight:23.5g
- ◆ Accessories: O-rings, lanyard, AAA battery incl.
- ◆ Available Colors:Blue, Red, Green, White, Orange
- ◆ Waterproof underwater 150m(500 feet)

D700 Max 1700 lumens

Main Features:

- ◆ Uses CREE LED, max 1700 lumens
- ◆ Uses 1*21700 5000mAh USB charging battery
- ◆ 6° beam angle
- ◆ Mechanically head rotary switch offers high reliability underwater
- ◆ Intelligent Over-Heat protection
- ◆ Water pressure resistant construction , depth rated to 150 meters
